DETAILED ACTION

Claim Objections

1. Claim 14 is objected to because of the following informalities: In line 2, following the word "claim", the word "to" should be deleted. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

3. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The meaning of the limitation at the end of step (a), "according to the necessity" is indefinite and vague in the absence of any description about what is necessary or not necessary. The presence of indefinite limitations within a claim renders the claim indefinite. However, for examination purposes, the limitation was not given any patentable weight.

Allowable Subject Matter

4. Claims 1 and 3 – 17 are allowed.
5. Claim 2 is objected to as being rejected under **35 USC § 112**, but would be allowable if rewritten to overcome the rejection.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Inqoue (US 2001/0051446), cited by applicant, and publications

Art Unit: 2891
